11602 N. 15th Street - Tampa, FL 33612

office phone: 813.971.5600

Network Specialist

Responsibilities include: The network specialist will provide high-level technical support for the telecommunications infrastructure, networking equipment, wireless network, and technology systems throughout the school. The specialist will be required to maintain, modify and/or enhance the school's web site as necessary. Additionally, the specialist will ensure the wireless system and web site are secure and accessible from different environments.

Qualifications include:

Graduation from a regionally accredited college with an Associate's degree required in networking technology, computer science, electronics, engineering, or related field and 3 years experience in designing, creating and maintaining websites in an academic environment preferred. Experience in the related fields of telephone, data communications, and network management a plus.

Certification(s) will be considered in meeting the experience requirement.

Compensation:

Competitive salary along with an excellent benefits package which includes the following: medical, retirement and sick leave.
